

Hyundai Forklift Part

Hyundai Forklift Parts - Since 1985, Hyundai Heavy Industries continues to be supplying and manufacturing various forms of construction equipment together with: forklifts, excavators, skid steer loaders, and wheel loaders. The heavy industry division operates a very effective product-supply system. This system is driven by zero-tolerance policy, excellent quality control and among the most superior automatic production lines.

Construction equipment has been released to rising markets along with Africa, Central and South America, the Middle East and Russia. Intense sales are being initiated by a group of 477 distributors in 110 countries. Local Hyundai subsidiaries have been established within the USA, Europe, India, and China.

The Construction Equipment Division within Hyundai Heavy Industries tries to satisfy and go beyond all of their customer's expectations by building dependable and effective equipment and providing excellent after sales service. Customer service is further maintained by their commitment to provide service parts in a timely manner to be able to lower all their customer's "downtime." Hyundai also welcomes customer feedback in order to project their customers' needs and market requirements onto product improvement, production and sales policies. Hyundai easily competes with the various leading brands in the trade.

Hyundai Heavy Industries honestly appreciates all their customers. The company is strongly dedicated to persistently enhance all their service and products even further. All of the company's managers and workers strive to uphold this reality with the utmost commitment in their products and assistance. Amongst their major objectives is to be able to help make their clients' venture even more successful.
