

## Electrical Part for Forklifts

Forklift Electrical Parts - Lift trucks as well as other lift trucks could have specific labels for use in some hazardous locations. The label denotes that this certain model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 meant for internal combustion engine forklifts.

Applications for labeled lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for further info about the approved uses of industrial powered trucks in your application.

If the certain lift truck satisfies the outlined standards, labels may be attached. A labeled forklift will show the type of designation located on the nameplate and will have a correctly corresponding label put.
